

65CM 2.4G BRUSHLESS R/C RACING BOAT FT011

NEW!

Special sealing can ensure more safety.

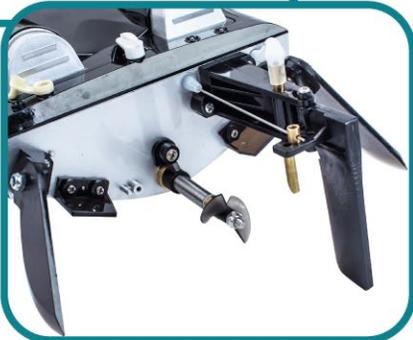

Gun design remote controller is easy to operate.

Equipped with 60A super power two-way ESC, 2822 brushless motor and 14.8V 2200mAh 30C lithium polymer battery. Highly cost-effective 3 in 1 ESC, with 2.4G receiver, electron speed regulator and servo controller.

FT011 is super power and flexible fast, top speed can reach 50km/h.

With water-cooling system motor and ESC, excellent cooling down performance, which make the boat more stable in a longer time racing.

Flip over automatically and quickly when the boat is capsized, easy to operate. ESC system has been designed with protection to avoid damage from overcurrent, overvoltage, Low voltage, motor blocked, etc.

ITEM NO. FT011

Specifications

- Frequency: 2.4G
- Power battery: 14.8V, (2200mAh) 30C Li-po
- Remote controlled time: 5~6 mins
- Radio range: 100~150m

Packaging

- Product size: 650x120x150 mm
- Box size: 720x230x288 mm
- Carton size: 730x475x705 mm
- Quantity: 6 PCS/CTNS

Certification

- CE, ASTM, FCC

Product function: Forward/backward, left/right turn, automatic flip over function; Speed: 50KM/H

WATER COOLING SYSTEM
